

CODMAN ACADEMY FOR "SCHOOLSTRIKE FOR CLIMATE CHANGE"

Welcome Codman students to the march for climate change

We March this **FRIDAY FOR THE FUTURE**

WHAT ARE THE REASONS TO PROTEST FOR CLIMATE CHANGE

- 821 million undernourished due to droughts
- Decrease in Global Ocean oxygen levels
- Climate change threatens Peatland Ecosystems
- Ongoing ocean Acidification
- +35 millions are affected by floods
- +1600 deaths associated with heat waves and wildfires

WHY WE STUDENTS NEED TO SPEAK UP AND WALK OUT OF SCHOOL

- We are frightened for the future and the adults are doing so little.
- We want politicians to take the fight against climate change seriously.
- Our Future is at stake
- We have not been able to get climate control under control and it will affect our generation
- We need the administration to change policies and technologies which will stop carbon emission.

HOW OUR VOICE CAN MAKE A DIFFERENCE

- After Greta Thunbergs protest around the world, the fight against climate change has gained momentum
- UN has vowed to reach net-zero carbon emissions by 2050
- Berlin has pledged to cut its emissions by 55 percent from 1990 levels by 2030.
- Putting pressure on current administration in the united states to make changes in policies (reducing subsidies on fossil fuels, tax benefits for electric vehicles, green energy)
- Media coverage and public attention will strength our case
- It will push congress to pass the "Green New Deal"
- Countries in EU like Sweden have changed major emission policies.

Fredag för Framtiden

FRIDAYS FOR FUTURE
