

DANCE CRAZY

STAY HOME, STAY ACTIVE, HAVE FUN!

STEP 1: PREPARE

To play Dance Crazy, you will need to set up a game space of four arrows, pointing away from you. Here are a few options:

OPTION 1: CHALK ON PAVEMENT:

Use chalk to draw arrows on a driveway or sidewalk. Stand in the center of the arrows so that as you dance, your feet move and step in the direction of the arrows.

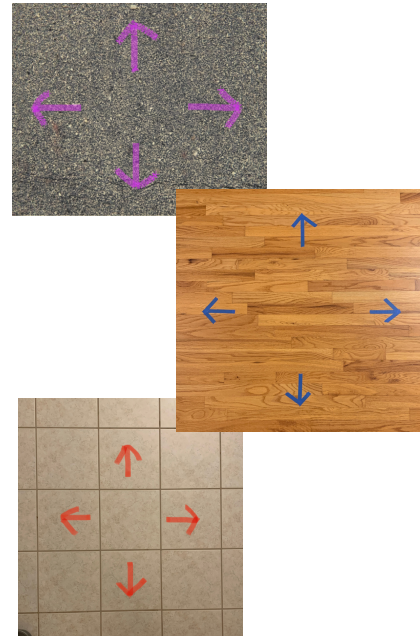

OPTION 2: TAPE:

Use painter's tape or washi tape to make arrows on the ground on any type of flooring. Painter's tape is easy to remove and does not leave a residue!

OPTION 3: TILES:

If you have tile flooring, stand in one square and imagine there are arrows around your feet like in the picture on the right. Or, use tape to make arrows in each tile!

OPTION 4: WHAT OTHER CREATIVE WAYS CAN YOU THINK OF?

STEP 2: PLAY!

1. Click on the name of the dance you want to play
2. Press the large green flag to start the game
3. Press **START** and dance! You can follow the feet images on the left or copy the dancer on the right.

Already played the game? Try out these challenges:

- Can you memorize what steps are coming up next?
- Can you recognize any patterns in the dances?
- Add your own arm movements to the dance!
- Think: what makes a dance easy or hard?
- Would you be able to teach one of the dances to someone else?
