

# Social Justice: COVID-19

Rachel Joseph & Isabella Lopez

# Big Question

How has COVID-19 impacted job security among individuals of different socioeconomic statuses?

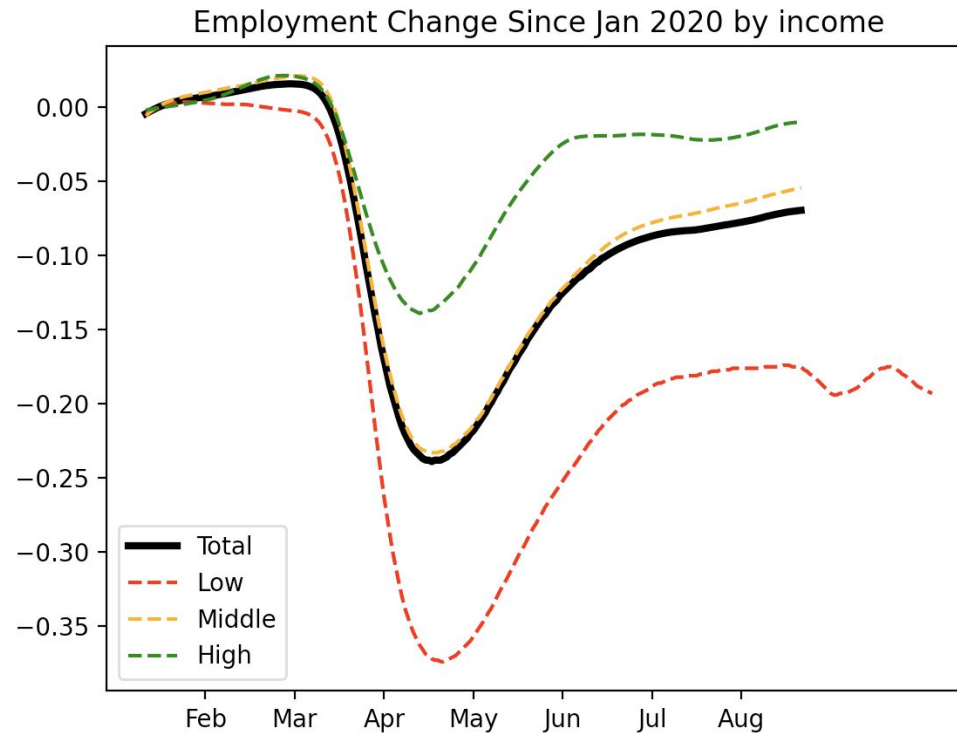

# Ethical Considerations

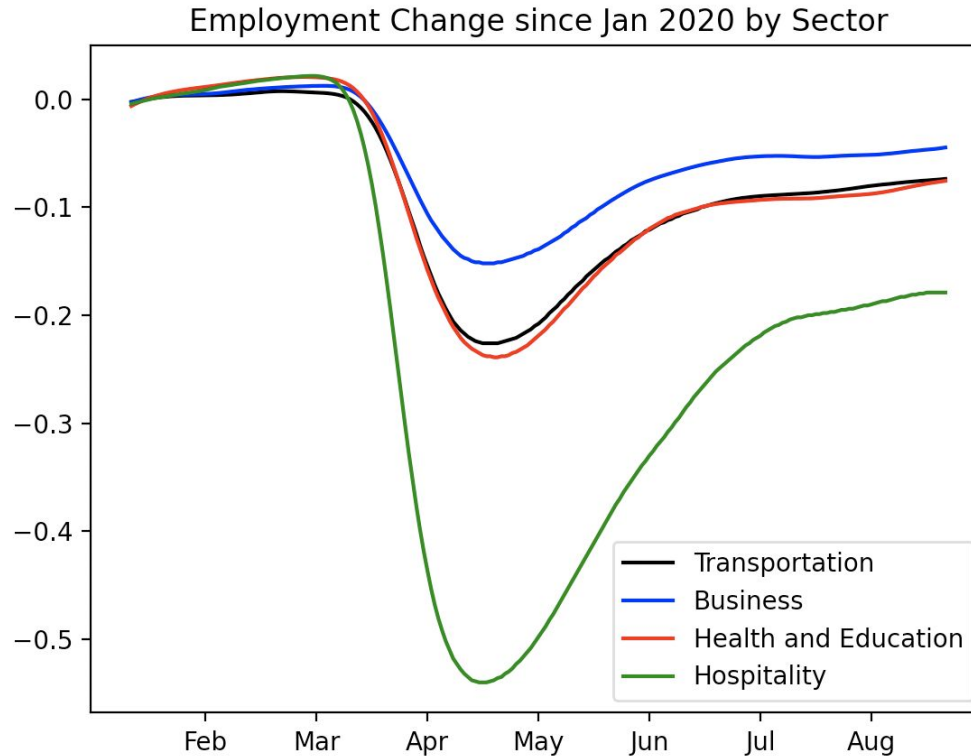

- Were certain socio-economic groups over or underrepresented in this data?
- Are the income levels (low, middle, high) meaningful cutoffs?

# Analysis / Visualization

# Analysis / Visualization

# Last Mile / Future Work

- Interpret state-level data
- Analyze data alongside COVID rates
  - Determine if unemployment changes matched the virus prevalence over time
- Use data that represents the population more accurately
